KALPDRUM is a dynamic and growing concern, with leaps and bounds. The only reason that can be attributed to its growth & performance is its strict adherence to quality products and services. Today, in this competitive world, we stand firm due to our Goodwill that we have created over the years.

KALPDRUM has been catering to pharmaceutical products for more than two decades and will continue to serve & extend the trust that our customers show in us.

The Company, has made its presence intangibly felt in the form of concrete results right from the time it initiated itself into dealing in Pharmaceutical raw materials (Bulk Drug), Chemicals and Vitamins. Since then, we have been able to set ourselves on the path of expansion. Now, the present scenario of the Company highlights the extensions made in this line itself by venturing into Medicines, Surgical and Dialysis Segment. This itself describes the growth that the Company is making and trust shown by our valuable customers.

The global perspective of being with the time has made the Company succeed & survive with the International competition. Our continuous commitment to supply quality products has made us venture into the AYURVEDIC Segment, which are already leaving its imprints in the World Market. The Company in a short while will be venturing into Herbal Medicines, helping us to keep the **FUTURE NURTURED NATURALLY.**
